Презентация лабораторной работы №14

Бакулин Никита 1032201747

Цель работы

• Настроить взаимодействие через сеть провайдера посредством статической маршрутизации локальной сети организации с сетью основного здания, расположенного в 42-м квартале в Москве, и сетью филиала, расположенного в г. Сочи.

Задачи

- Настроить связь между территориями.
- Настроить оборудование, расположенное в квартале 42 в Москве.
- Настроить оборудование, расположенное в филиале в г. Сочи.
- Настроить статическую маршрутизацию между.
- Настроить статическую маршрутизацию на территории квартала 42 в г. Москве.
- Настроить NAT на маршрутизаторе msk-donskaya-gw-1.

• Настроить связь между территориями. *LINEPROTO-5-UPDOWN: Line protocol on Interface FastEthernet0/1.5, changed state to up
